Sport is important part of our life. It is not only some kind of exercises, it also includes ~~different games and~~ care of our health, too. Our life is short, that's why we must take care about ourself, for example, keep fit. Firstly you should eat healthy food. Fruit and vegetables must become your „close friends". Secondly, you should do regular exercises to make your body stronger. 64

Society and social life have a big infuence on us, teens. And I think it is wonderful if people share advises and help each other : for example, where is the best gym, or what healthy products are tasty. 38

Of course, sport should be a part of ~~our~~ life of each person on the planet. But we must understand what we do. Let's see the story. There was a girl, who always wanted to be be beautiful and skinny. She decided that food is her enemy and stopped eat at all. The girl also heard from her friends that if you will go to the gym you will have an amazing body. So she began do sports every day for six hours after school. And suddenly she got into hospital. Now the girl is okay, she has a normal diet and relaxes a lot.

That's why we must feel ourself, do sports well and not destroy our body.

Nowdays more and more people are sticking to a healthy lifestyle. More and more people start doing various sports. The main reason for it, as I think, is the fact that it is almost necessary for modern people to stay healthy and fit if they want to succeed in their life, carrier, education. Doing sports can positivdy influe on all spbers of your life. Sporty, fit people are usually more energetic and efficient at working at studres. They catch up new infonmation better, put more effort into there job. While doing sports, people develop a lot of positive charachterrstrcs in themselvs that help them both in there sport and everyday ~~career~~ life. For example, people who ~~s~~ professionaly do sports are very ambitious and reach there goals way easier than others. 197

Speaking about sport among modern teens, the situation is rather complicated. A lot of them are interested in sport and some are even seriously preparing for a professional sportsman career. But ~~still~~ there is ~~still~~ a huge number of teens who don't do any sports and exercises at all, prefering to them video games and social network. Such behaviour can easily lead to various vision, muscle, bone and even mental problems, that are way easier to prevent than to heal.

Everyone must pay attention to sport and exercises, at least a little one. 235

Nowadays a lot of people want to be and to look healthy. Different stars, social media and the governm told us that healthy lifestyle is jolly great! And I can say that it is good to be healthy if you are a teenager.

In my opinion, healthy lifestyle is very good for people. If you are healthy, you wouldn't meet problems with health or with your organs. You also wouldn't meet problems with people. Healthy people are more attractiv to the society. Espessialy students should do some trannings. If the student or the teenager do some sports, eat healthy food, he wouldn't have problems with health in future.

But some people can say that doing sports is waste of time or boring and hard thing. Society loves everyone and meet you with big hugs.

I can't agree with such people. If you don't do sports or some exersises, you would ill in the future. But when you become old, you can't change anything. I have ~~mis~~ lost your opportunity yet.

In conclusion I can say that healthy lifestyle is the best way of lifestyle. Because when you are absolutly healthy, you can do everything you want without any problems. Healthy lifestyle should become the lifestyle of all people.

Essay. 6-А3-10-01-24.09.2020-07

Nowadays many people around the world suffer from overweight and seedentary lifestyle that cause a bunch of serioues health problems and mental disorders. That's why sport is gaining more and more popularity today.

Indeed, the popularity of sport isn't accidental. A sport is a great hobby that will definetely help you to keep fit, develop and improve your physical and mental health and lose weight, if it is your aim.

Moreover different sport classes can affect your social life in a good way: your self-esteem will become higher (as your self-confidence), all negative energy will leave your body and mind (sport is a kind of therapy) and your life will be much brighter and easier.

As I mentioned earlier sport can develop your mental health, a lot particularly your personality. All these strugglings and pain will create the best version of you. If you can handle, go through it, then you can handle everything else for sure.

All in all sport is enormously important! People should practise it during all their lives. Sport knows no age! Also it is really important to stay constant and pay attention to sport in the teen age as during this age we get used to do it regularly, on the daily bases

# Essay

All teenagers need to keep fit. Keeping fit involves sports, healthy food, morning exercises, adequate sleep (7-8 hours). It is important for teens, because it is the age when young people build up their health.

All healthy activities must be regular. It's vital at this age, because it helps teens to develop positive habits. Going in for sports can take 2-3 hours from person's week, it is enough to stay healthy. It'll strenghten teen's body, develop mind and help to avoid stress. Children get a lot off stress at their lessons, exams – at school. They require to loose it every week. Teens have problems with family, classmates, they have weak mind, that's why they need to strenghten themselves.

I think, teens must be given more time for walks, sports, fed with healthy food full of vitamins. Schools must teach their pupils to enjoy healthy lifestyle. We have a lot of useless lessons, but we don't know what exercises to do and why we need it. We must not be tought how to cook meal made of sintatics. We need to have free of charge sport-grounds and sweemingpools – places, where we can do everything regularly, not spending lots of time on transport getting to the destination with facilities. Teens like healthy life without destroying habits, but they don't enough time to do it regularly and places for it.

You should write about **200 - 250** words.

Nowadays more and more teens want to do sport. But is it very important to practise a sport activities regulary When you are a teenager? And how it would help social like and how it influence on health? 35

Firstly, sport helps you to keep fit. When you do sport activities the risk of heart illnesses summarises. But if you want to keep fit your main aim should be to do sports regulary. Secondly, you should eat only ~~health~~ healthy food because without healthy food you can't keep fit. Thirdly, sport activities can help you in daily like. For example if you take some where you should run fast. But you can't run for a long distance if you don't keep fit.

On the other hand not all teenagers can ~~to~~ go for sports. They actually don't have free time.

As for me I think that teenagers should do sports activities regulary. They also should visit P.E. lessons in school if they ~~haven't~~ don't have free time for sport after school. Teenagers can also play different games with friends. Such as football, basketball and others.

In conclusion I want to say that sports play a huge role in our like. It influence also on health and immution system.
